MADE IN THE USA

FRICTION TECHNOLOGY

THAT OUTPERFORMS OE

Hybrid Technology friction clutch plates are an OE replacement that deliver added performance for all passenger vehicle applications (except Honda).

- Reduces stress during shifts
- Longer life after rebuild
- Hassle-free installation

GPX friction clutch plates are an OE replacement that deliver added performance and are a perfect fit for Honda/Acura passenger vehicle applications.

- Endures high temperatures
- Better-than-OE durability
- Engages smooth shifts

ZPak® single-sided clutch systems are a drop-in replacement that outperform the OE in torque capacity, durability and heat resistance.

- Eliminates high stress coning
- Increases torque capacity
- Reduces core temperatures

TorqKit clutch packs are ideal for high stress diesel or towing applications where horsepower and torque have been increased beyond OE specification.

- Increases durability
- Reduces core temperatures
- Improves clutch life

CLUTCH PLATES (FRICTION)

All plates ending in "EX" are made by Dynax/Exedy

YOUR DRIVETRAIN CONNECTION SINCE 1961

Things change over 55 years.

Our name might have changed, but not our quality and immediate access to thousands of hard-to-find parts.

GFX is one of the oldest, most established Miami-based distributors specializing in electronics and hard parts for any vehicle. With offices in Miami, China and Taiwan, GFX is your direct link to a wide variety of often hard-to-find OEM and aftermarket products such as drums, shells, planetary components, pistons, pump gears, pump components, solenoids, sensors, switches, sprags and much more.
